PRAI	JP 1971-51585	A	19710712		
AB	The title compd., long-acting vitamin B2, was prepd. by heating 0.1 mole riboflavine with 0.48 mole carbobenzoxytryptophane chloride for 35 min at 130-40.degree. in the presence of pyridine.				
ST	riboflavine tetratryptophane ester; tryptophane ester riboflavine				
IT	***40922-84-7P***				
	RL: SPN (Synthetic preparation); PREP (Preparation)				
	(prepn. of)				
IT	40732-45-4				
	RL: RCT (Reactant); RACT (Reactant or reagent)				
	(reaction of, with riboflavine)				
IT	83-88-5, reactions				
	RL: RCT (Reactant); RACT (Reactant or reagent)				
	(with carbobenzoxytryptophane chloride)				
IT	***40922-84-7P***				
	RL: SPN (Synthetic preparation); PREP (Preparation)				
	(prepn. of)				
RN	40922-84-7 CAPLUS				
CN	L-Tryptophan, N-[(phenylmethoxy)carbonyl]-, tetraester with riboflavin				
	(9CI) (CA INDEX NAME)
